Filesizes may differ on different computers.

Email 1/3 – Documentation.

The first attached is a filesize-optimized PDF, with vector-image replicas of the original raster figures and other internal optimizations that preserve the exact appearance of the original file when printed.¹ The purpose was to get the files small enough to email to whistleblower resources with size-constrained inboxes. The original draft-marked PDF versions of this document are attached to email 2/3, and are also at <https://5usc2302.github.io/risk/Fulldocumentation/Originalversions>.

I crossed out the draft labels and wrote in the finalization date above the first label in each major part or volume. In most cases that was October 2, 2015, when FEMA began claiming this updated risk assessment as the authority for its updated requirements on state and local partners (https://www.fema.gov/sites/default/files/2020-06/national_preparedness_goal_2nd_edition.pdf).

The other documents are the original (May/June 2015) draft-marked versions. The filesize-optimized PDF versions of these documents are at <https://5usc2302.github.io/risk/Full%20documentation/>.

In case email 1/3 doesn't get to your inbox [it is very large], the attachments listed below are also at <https://5usc2302.github.io/risk/>.

1. Strategic National Risk Assessment (SNRA) 2015 - Consolidated unclassified documentation.pdf (7,579 kb)
2. Full unclassified 2015 documentation (original pdfs).zip (11,245 kb)
 - 2.1. SNRA 2011-15 Instructions and terms of reference.zip (739 kb)
 - 2.2. SNRA 2015 documentation of record (original pdfs).zip (10,368 kb)
 - 2.2.1. Technical appendix (Draft_(U)_SNRA_Technical_Appendix_draft_20150529.pdf) (8,746 kb)
 - 2.2.2. Working papers (Draft_(U)_SNRA_2015_Working_Papers_201500522.pdf) (1,557 kb)
 - 2.2.3. Findings ((U)_2015_SNRA_Findings_draft_20150529.pdf) (540 kb)
 - 2.3. SNRA 2011 public summary (145 kb)
 - 2.4. Document notes.rtf (74 kb)
3. Attachment list.pdf (36 kb) ([this document](#))

Email 2/3 – Original draft-marked 2015 versions of the remaining documents in the single volume binder.

The largest part of the pdf binder on email 1/3 is a July 2015 consolidated version of the SNRA 2015 Technical Appendix which my FEMA office put together after the project was done (the reason for the FEMA [rather than DHS] seal and the caveats on the cover) to make the product easier to use, nicknamed the SNRA Resource for Planners from the subtitle on its cover. The draft-labeled July 2015 document with its original cover,² and the November 2016 version of the same which is identical except for the cover design and front inserts, are attached in one zipfile.

1. SNRA 2015 Resource for Planners (consolidated technical appendix).zip (21,898 kb)
 - 1.1. SNRA Resource for Planners (consolidated tech appdx, original cover) 20150717.pdf (13,181 kb)
 - 1.2. SNRA Resource for Planners (consolidated tech appdx, current cover and inserts) 20161129.pdf (12,423 kb)
 - 1.3. Document notes.rtf (74 kb)
2. Attachment list.pdf (36 kb) ([this document](#))

Email 3/3 – The pandemic, Maria's deaths, and future risks. Context and justification for lawful disclosure.

Context packet sent in July 2021, with additions and changes documented in the email and the attached zipfile (subfolder 7.5 below). These attachments are also at <https://5usc2302.github.io/risk/5 U.S.C. 2302 justification/20220913>.

1. Detail (brief) v2.pdf (71 kb)
2. Substantiation of assertions and 5 USC 2302 justification 20220627.pdf (643 kb) (no change from 6/27/2022)
3. SNRA FAQ 20190319.pdf (150 kb)
4. SNRA follow-up letter to committee staff 20201016.pdf (184 kb)
5. SNRA FOIA appeal 2017-FEFO-00165 20171101.pdf (315 kb)
6. NTHIRA FOIA 2020-FEFO-00401 less redacted.pdf (70 kb)
7. Supporting files and context 20220913.zip (4,465 kb) (the zipfile previously named *Substantiation and context.zip*, renamed to avoid confusion with attachment #2 above) (no changes from 6/27/2022 other than updated dates)
 - 7.1. Additional notes 20220627.doc (96 kb) (no change from 6/27/2022)
 - 7.2. What's missing.pdf (1,998 kb)

¹ Including typos and other small embarrassments. A reader-controllable pdf correction layer corrects many of these, but not all.

² I took the original cover design from the *Whole Earth Catalog*. It didn't work, so I toned it down later (the current [November 2016] cover).
